### NOTIFICATION OF PLANNED UTILITY CONSTRUCTION WORK

In the near future, SEMCO ENERGY Gas Company will be performing work to update the gas service and main in your neighborhood at:

54<sup>th</sup> Ave, Forestview Ct, Forestview Dr, Oakdale Dr, Rosewood Ln,  
Tyler St, 48<sup>th</sup> Ave, 56<sup>th</sup> Ave, Manitoba Ct, Tyler Pines Ave

Consequently, this work will entail excavation and trenching in the right-of-way in front of your property and running a new service line to your house. The project is anticipated to start Summer of 2025.

SEMCO Energy Gas Company and its contractors are required by law to notify the Miss-Dig system in order to have all underground public utilities (electricity, gas, telecommunications, water and sewer) located prior to any excavation. Many municipalities however do not locate nor consider it their responsibility to locate the sanitary sewer lines running from your home. As a result, it may be necessary to gain access to your home as a secondary method to verify the location of the sanitary sewer line that runs to your home. SEMCO's subcontractor, Miller Pipeline; will begin locating sewer lines this month. If they need to gain access to your home to confirm the location of the sanitary sewer lines, they will contact you directly to schedule an appointment for access. **There is no cost to the homeowner.**

*The Homeowner is required to locate any private utilities such as Sprinkler system, Well, Private underground electrical, Private underground security or communications, and Underground fuel lines or tanks.*

During the work on the gas service line, it will be necessary to shut-off the supply of natural gas to your home for a period of 1-2 hours. Therefore, we must gain access to your home and re-light the natural gas appliances. An adult 18 years or older must be present at your home while this re-light work is being performed. A SEMCO Energy representative will contact you during this project to set up an appointment to complete this work at your convenience. If access to your home will not be possible during normal business hours, 8:00 a.m. – 3:30 p.m.; a SEMCO Energy Service Tech will place a customer tag on your door. The customer tag will provide a phone number to contact SEMCO Energy. SEMCO Energy has 24 hour, seven days per week coverage. If after normal business hours, you must contact SEMCO Energy and schedule an appointment to reestablish natural gas to your appliances. **Again, there is no cost to the homeowner.**

Weather permitting; the cleanup will be shortly after the project is completed.

If you have any questions or concerns, please call Sarah Turkstra at (616)392-8060 ext. 5777.  
Thank you for your patience and understanding.

Sincerely,

SEMCO ENERGY Gas Company  
Western Operations Department
